

## HYDRAULIC WATERTIGHT SLIDING DOOR SHIPTIGHT (H)

## TECHNICAL DATA

- Variable door sizes acc. to customer requirement
- > Available for 0-15 m wc
- Premounted, tested compact unit
- > Variable sill versions
- > No need for additional reinforcement
- > Shortest possible installation time
- Also available as fire-proof watertight sliding door, fire class A-0 to A-60, with certificate

## **ADVANTAGES**

- T-section seal for optimal equalisation of mounting tolerance when welding in place
- Increased door frame stiffness
- Guide unit is made of rust-proof stainless steel and brass
- Less force needed to close the door

- Easier installation, as new model requires no cylinder or guide rail fastening to bulkhead
- Sealing surface is rust-proof
- > Power Pack with air-cooled electrical motor
